

Cleaning System

Manual Foam Generator

Easy Foamer

MAIN FEATURES

Easy Foamer is a manual foam generator designed for easy handling and dilution of the product. Ideal for cleaning and sanitizing with foam and rinsing by means of the gun, which can be easily removed through the quick release. Two available versions (1.3 and 2.5 liters - nominal), meet the needs and requirements of different applications. Its electrostatic painted metal gun and HDPE reservoir ensure the robustness and durability expected by the user, with excellent cost benefits and great mobility. Ideal for supermarkets, refrigerators, car washing, general hygiene, food industry and butcheries, etc.
