STERIL S

LATEST GENERATION CHLORINATORS

STERIL S

Compact IP65 salt chlorinator with capacity to produce 15 to 35 gr/h

- Energy saving thanks to its low power consumption
- Low weight
- High protection degree (IP65)
- Perfectly working even at low water temperatures
- Compact system, easy to install in tiny technical room
- High efficiency in the chlorine production guaranteed by its latest switching ballast
- Long life cell thanks to the polarity inversion (2-8h)
- Its internal microprocessor managing the operating hours guarantees high functionality Maximum

	STERIL 15 S	STERIL 20 S	STERIL 35 S
Max. cell current	15A	20A	35A
Production (gr/h)	15gr	20gr	35gr
Max. Power	112w	150w	263w
Power supply voltage	230V-50/60Hz		
Cell Voltage	7.5v		
Salt quantity	4 gr/l		
Control unit dimension	250x308x89 mm		
Pack size/weight	460x430x220 mm 6kg
